

Core – Assistance with Daily Life (includes Supported Independent Living)

This support category relates to assisting with and/or supervising personal tasks of daily life to enable the participant to live as autonomously as possible. These supports are provided individually to participants and can be provided in a range of environments, including but not limited to, the participant's own home.

Daily Personal Activities, including High Intensity Daily Personal Activities

A hierarchy of price limits applies to this group of supports, based on:

- A) The time of day that the support is delivered;
- B) The day of week that the support is delivered;
- C) Whether the support is Standard Intensity or High Intensity;
- D) If the support is High Intensity then whether it is a Level 1 (Standard), Level 2 (High Intensity) or Level 3 (Very High Intensity) support;
- E) REDinc. is eligible for the Temporary Transformation Payment (TTP). REDinc. will charge the TTP where relevant.

Time of day and day of week

In determining which price limit is applicable to a support, providers should note that a support is considered to be:

- A Daytime Support if it is delivered between 6 am and 8 pm;
- An Afternoon (formerly Evening) Support if it is delivered after 8 pm and before 12 midnight; and
- An Overnight Support if it is delivered between 12 midnight and 6 am.

In determining which price limit is applicable to a support:

- A weekday is Monday to Friday;
- The extra rates paid for Saturday, Sunday and Public holidays are in substitution for, and not cumulative upon, the shift premiums payable for afternoon and overnight supports; and
- The extra rates for Saturday/Sunday/Public holidays do not increase further when the support finishes after 8pm.

Effective from 1 December 2019

Assistance with household tasks

These support items enable participants to maintain their home environment. This may involve undertaking essential household tasks that the participant is not able to undertake.

Assistance in Shared Living Arrangements – Supported Independent Living

Supported Independent Living (SIL) is the assistance with and/or supervising tasks of daily life in a shared living environment, with a focus on developing the skills of each individual to live as autonomously as possible. The support is provided to each person living in the shared arrangement in accordance with their need.

SIL does not include rent, board and lodging or other day-to-day usual living expenses such as food and activities. It also does not include the capital costs associated with a participant's accommodation.

SIL does not have fixed price limits, and providers can quote for the specific SIL service that they offer to each participant. To assist providers with quoting, the NDIA has developed a Provider SIL Pack. The Provider SIL Pack contains templates that assist providers in developing an individualised quote. The purpose of this quote is to identify:

- The individual supports that will be available for the person, focussed on maximising the person's capacity to be as independent as possible with household decision making, personal care and domestic tasks;

- The typical roster of supports that is shared between participants to maximise the efficient use of resources; and
- What supports are available to all residents to ensure the smooth operation and running of the household.

Once a quote is received, the NDIA uses a 'SIL Tool' to analyse provider quotes and to make sure that they represent value for money. In some cases, negotiation between the NDIA and providers will be necessary to agree appropriate prices for SIL.

Short Term Accommodation and Assistance (including the provision of respite care)

From time to time, participants may require temporary comprehensive supports that are different from their usual arrangements. These are non-typical days and may include Short Term Accommodation (STA) in a group-based facility. They may also include a period of respite, which aims to support ongoing caring arrangements between participants and their carers. STA/respite allows the opportunity for the participant to be supported by someone else whilst providing their carer with short term breaks from their usual caring responsibilities.

The STA/respite price limits include all expenses in a 24-hour period including assistance with self-care or community access activities, accommodation, food and negotiated activities. Typically, this type of support would be used for short periods of up to 14 days at a time (exceptions may be made such as for participants entering Voluntary Out of Home Care). For longer-term arrangements, other options are likely to be more appropriate (e.g. Supported Independent Living or Medium Term Accommodation).

In cases where a participant will receive substantially less than 24 hours of assistance with daily personal activities, it may be appropriate for the participant and provider to negotiate a lower price than the maximum price specified in this Price Guide, based on the actual hours of support provided. This situation might arise, for example, if a participant enters a STA/respite facility in the evening, and exits again early the following morning. In addition, where a participant enters accommodation late in the day, it may be appropriate to claim the daily rate for the day of the week that the majority of the support is provided. In each case, support arrangements, including price, should be agreed with participants in advance.

STA/respite price limits vary according to the support needs of the participant and the day of the week the support is provided. Providers claiming at the rates for high intensity (i.e. ratio of 1 support worker for 2 participants) or 1:1 support must deliver assistance with daily personal activities at those support ratios for the duration of the participant's stay.

Prices provided by the National Disability Insurance Agency (01/12/2019). **NDIS Price Guide 2019 - 20**. The NDIS Price Guide is subject to change.

Medium Term Accommodation and Assistance (MTA)

There may be cases where a participant will require arrangements for longer periods of time when a participant requires transitional accommodation before moving into a more permanent home or arrangement (for example, after hospital discharge). Typically, MTA would be used for periods up to 90 days.

The MTA price limit covers only the accommodation component of the care, with the support component of the care to be claimed through the appropriate support line items such as ‘assistance with self-care’ at the relevant time of day and day of week.

Participants who stay in MTA facilities will be responsible for meeting their own food and everyday living costs from their own income rather than NDIS plan.

Support Item Number	Support Item Name	Non Remote	Remote	Very Remote

Core - Assistance with Social and Community Participation

These supports enable a participant to engage in community, social or recreational activities. They may be provided in a centre or in community settings at standard or higher intensity rates. If arranged in advance with participants, providers may charge up to four hours for each plan period to document proposed supports and expected outcomes. Price limits vary according to the support needs of the participant and the day of the week the support is provided.

Providers should not claim payment for:

- Expenses related to recreational pursuits, such as event tickets for the participant, as they are not covered by the NDIS; and
- The cost of entry for a paid support worker to attend a social or recreational event.

A hierarchy of price limits also applies to this group of supports, based on:

- A) The time of day that the support is delivered;
- B) The day of week that the support is delivered;
- C) Whether the support is Standard Intensity or High Intensity;
- D) If the support is High Intensity then whether it is a Level 1 (Standard), Level 2 (High Intensity) or Level 3 (Very High Intensity) support; and

Group based supports

Assistance to access community, social and recreational activities is often provided in a group setting, either in the community or in a centre.

A hierarchy of price limits applies to group based supports, based on:

- A) The time of day that the support is delivered;
- B) The day of week that the support is delivered;
- C) Whether the support is Standard Intensity or High Intensity (complex);
- D) Whether the provider is eligible for the Temporary Transformation Payment;
- E) The size of the group and ratio of staff to participants; and
- F) Whether the support is provided in a Centre or in the community.

For support ratios that are not stated in this Guide (e.g. two workers for three participants), participants should discuss and agree the most appropriate line item to be used for payments, and the appropriate price to be paid (which might be lower than the price limit for that line item).

Core - Transport

Participant Transport

Providing community participation supports may, at the request of a participant, involve a worker accompanying a participant on a community outing and/or transporting a participant from their home to the community. In these situations, the worker's time can be claimed at the agreed hourly rate for the relevant support item for the total time the worker provides support to one or more participants, including time spent accompanying and/or transporting the participant. Where a provider is transporting two or more participants on the same trip, the worker's time should be claimed at the appropriate group rate for the relevant support.

This claim should be made using the relevant community participation support item and against the participant's core budget. In essence, the participant transport is a part of the community participation activity and should be billed accordingly.

Contribution towards costs of transport itself

If a provider incurs costs, in addition to the cost of a worker's time, when accompanying and/or transporting participants in the community (such as cost of ticket for public transport, road tolls, parking fees and the running costs of the vehicle), they may negotiate with the participant for them to make a reasonable contribution towards these costs.

A participant's support budget may include funding for transport, and this funding can be used for these types of contributions, which should be clearly specified in the service agreement. If the participant's support budget does not include funding for transport, then these costs should not be met from the participant's plan, but can be charged as an out of pocket expense to the participant.

Capacity Building - Support Coordination

Support Coordination (if required) is included in the Capacity Building budget. This budget is allocated to support NDIS participants to coordinate and implement support in their plans and to support participants to engage in meaningful participation within their community. The NDIS Price Guide stipulates three levels of Support Coordination;

Level 1: Support Connection

Assistance for participants to implement their plan by strengthening the participants ability to connect with community supports, understand the purpose of funded supports, support participants to understand their NDIS plan, provide information regarding service options within the participants community and provide assistance to connect participants to services.

Support connection will assist participants to achieve effective utilisation of their NDIS plan.

Support Connection will increase a participant’s capacity to maintain (or in some cases change) relationships, resolve service delivery issues, and participate independently in NDIA processes. Support Connection includes, but not limited to:

Understand the Plan;

- Connect with Supports and Services;
- Establish Supports;
- Coach, Refine, Reflect;
- Report to the NDIA.

Support Item Number	Support Item Name	Non Remote	Remote	Very Remote
07_001_0106_8_3	Level 1: Support Connection	\$60.16	\$84.22	\$90.24

Level 2: Coordination of Supports

The delivery of Coordination of Supports is to assist strengthening a participant's ability to design and then build their supports with an emphasis on linking the broader systems of support across a complex service delivery environment. Coordination of Supports is to focus on supporting participants to direct their lives, not just their services. This involves working together to understand the funding, identify what participants expect from services, and how participants want this designed. Coordination of Supports also includes coaching participants, and working with participants to develop capacity and resilience in their network.

Support coordinators are focussed on assisting participants to build and maintain a resilient network of formal and informal supports.

It is generally expected that participants will develop their capacity to implement and manage their supports and network more independently over time. Some participants however will require Coordination of Supports funding in subsequent plans to support ongoing capacity building or manage the complexity within the participants support environment and/or circumstances. This is to be identified in the plan review process. Coordination of Supports includes, but is not limited to:

- Understand the Plan;
- Connect with Supports and Services;
- Design Support Approaches;
- Establish Supports;
- Coach, Refine, Reflect;
- Targeted Support Coordination;
- Crisis: Planning, Prevention, Mitigation and Action;
- Build Capacity and Resilience; and
- Report to the NDIA.

REDinc. NDIS Price List

Effective from 1 December 2019

Support Item Number	Support Item Name	Non Remote	Remote	Very Remote
07_002_0106_8_3	Level 2: Coordination Of Supports	\$98.06	\$137.28	\$147.09

Level 3: Specialist Support Coordination

Specialist Support Coordination is delivered utilising an expert or specialist approach, necessitated by specific high complex needs or high level risks in a participant’s situation. Specialist Support Coordination is delivered by an appropriately qualified and experienced practitioner to meet the individual needs of the participant’s circumstances such as a Psychologist, Occupational Therapist, Social Worker, or Mental Health Nurse. Specialist Support Coordination will address highly complex barriers impacting on the ability to implement their plan.

Specialist support coordination is expected to address complex barriers impacting a participant’s ability to implement their plan and access appropriate supports. Specialist support coordinators assist participants to reduce complexity in their support environment, and overcome barriers to connecting with broader systems of supports as well as funded supports.

Specialist support coordinators are expected to negotiate appropriate support solutions with multiple stakeholders and seek to achieve well-coordinated plan implementation. Specialist support coordinators will assist stakeholders with resolving points of crisis for participants, assist to ensure a consistent delivery of service and access to relevant supports during crisis situations.

Specialist support coordination is generally delivered through an intensive and time limited period necessitated by the participant’s immediate and significant barriers to plan implementation. Depending on individual circumstances, a specialist support coordinator may also design a complex service plan that focusses on how all the stakeholders in a participant’s life will interact to resolve barriers and promote appropriate plan implementation. Once developed, a specialist support coordinator will continue to monitor the plan, but it may be maintained by one of the participant’s support workers or other care supports.

In some instances depending on the individual circumstances, a participant may have specialist support coordination as well as Coordination of Supports funded in the same plan. For instance, when immediate complex barriers have been addressed and the participant still requires more general coordination

of supports for the remainder of their plan period. For others, they may have specialist support coordination in one plan and Coordination of Supports in subsequent plans. Specialist Support Coordination includes, but is not limited to:

- Understand the Plan;
- Connect with Supports and Services;
- Design Support Approaches;
- Establish Supports;
- Coach, Refine, Reflect;
- Targeted Support Coordination;
- Crisis: Planning, Prevention, Mitigation and Action;
- Address Complex Barriers;
- Design Complex Service Plan;
- Build Capacity and Resilience; and
- Report to the NDIA.

Capacity Building and Training in Plan and Financial Management by a Support Coordinator

This reasonable and necessary support focusses on strengthening the participant’s ability to undertake tasks associated with the management of their supports. This includes:

- Building financial skills
- Organisational skills
- Enhancing the participant’s ability to direct their supports
- Develop self-management capabilities

Plan and Financial Capacity Building providers are expected to assist the participant to develop their skills for self-management in future plans, where this is possible. As a part of this capacity building support, providers are to assist the participant to build capacity in the overall management of the plan including engaging providers, developing service agreements, paying providers and claiming payment from the NDIA and maintain records.

07_003_0117_8_3	CB and Training in Plan and Financial Management by a Support Coordinator	\$60.16	\$84.22	\$90.24

Capacity Building - Increased Social and Community Participation

This support category involves supports for participation in skills-based learning to develop independence in accessing the community.

Skills Development and Training

These support items are price controlled. Providers of these supports can also claim for: Provider Travel and Cancellations.

The group rate is based on a staff/participant ratio of 1:3. If the group size differs, providers should claim at the rate applicable for the group size. A higher staff ratio for groups may be indicated when a participant has challenging behaviour or high medical support needs, which require additional assistance from another worker and this is referred to as a higher intensity support.

Innovative Community Participation

This support item is not price controlled. It is designed to allow providers to offer new and innovative services to NDIS participants. Any standards applicable to the industry in which the provider operates would need to be met.

Community Participation Activities

These support items are not price controlled. They are designed to enable providers to claim for tuition fees, art classes, sports coaching and similar activities that build skills and independence. Camps, classes and vacation activities that have capacity building components. These may include assistance to establish volunteer arrangements in the community, mentoring, peer support or individual skill development.

All supports funded under these items need to be determined as reasonable and necessary given the participant’s plan goals and could include, but are not limited to:

- Universal recreational activities: A limited number of lessons could be funded to enable a participant to try out an activity and test their capability and interest in further pursuing this activity – such as horse riding, art, dance or singing classes
- Funding to attend a “camp” or groups that build a person’s relationship skills and offer a range of activities and opportunities to explore wider interests.
- Other items or adjustments such as customised tools required because of the person’s disability could also be funded.

Capacity Building - Finding and Keeping a Job

Workplace assistance

These supports provide workplace assistance that enables a participant to successfully obtain and/or retain employment in the open or supported labour market.

These supports can be applied to any working age participant (including students reaching working age) with an employment goal. This may include supports to:

- explore what work would mean for them (discovery);
- build essential foundation skills for work;
- managing complex barriers to obtaining and sustaining employment;
- specialised job customisation;
- supports to transition from an Australian Disability Enterprise (ADE) to open employment;
- develop a career plan;

School Leaver Employment Supports (SLES)

School Leaver Employment Supports (SLES) is a support for school leavers to assist them to transition from school into employment. Some students may already be engaged with the mainstream DES Eligible School Leaver (ESL) program during Year 12 and therefore not require SLES.

These supports are designed to plan and implement a pathway to inclusive employment, focussing on capacity building for goal achievement. With appropriate supports, it is expected that the majority of SLES participants will transition to DES to undertake the job seeking, placement and post placement support phases of their pathway.

Supports will have an individualised approach, with a strong emphasis on “try and test” work experience opportunities, (generally in work places that would pay award wages). Capacity building should focus on hard and soft skill development.

10_021_0102_5_3	School Leaver Employment Supports	Quotable Item		

Capacity Building - Improved Relationships

This support category is for the provision of specialised assessment where the participant may have complex or unclear needs, requiring long term and/or intensive supports to address behaviours of concern.

Behaviour support requires a behaviour support plan to be developed that aims to limit the likelihood of behaviours of concern developing or increasing once identified. This plan outlines the specifically designed positive behavioural support strategies for a participant, their family and support persons that will achieve the intended outcome of eliminating or reducing behaviours of concern.

This support category includes specialist behavioural intervention support, which is an intensive support for a participant, intending to address significantly harmful or persistent behaviours of concern.

Capacity Building - Improved Life Choices

Plan Management – Financial Administration

Plan Management – Financial Administration funding applies to registered providers who undertake financial administration of a plan on behalf of a participant.

Plan Management – Financial Administration funding includes a setup fee to establish the payment arrangements with providers and a monthly processing fee. This support assists a participant by:

- Giving increased control over plan implementation and utilisation with plan financial assistance
- Managing and monitoring budgets over the course of the plan
- Managing NDIS claims and paying providers for delivered service
- Maintaining records and producing regular (at least monthly) statements showing the financial position of the plan
- Providing access to a wider range of service providers, including non-registered providers whilst remaining in line with the price limits contained within the NDIS Price Guide.

A Plan Management – Financial Administration provider will possess bookkeeping / accounting skills and qualifications. They will have systems in place for efficiently processing payments on behalf of a participant.
